DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Berger et al for the reasons presented previously.

Allowable Subject Matter

3. Claims 6-9 are allowed. These claims are allowable since the prior art neither shows nor renders obvious in the combination as claimed the provision that the measuring roller controls the web planeness as recited in claims 6 and 8.

Response to Arguments

4. Applicant's arguments filed 2/4/04 have been fully considered but they are not persuasive as to the rejection of claims 1-4. The declarations have been considered but do not overcome the 102(b) rejection. Furthermore the examiner's response to applicant's arguments presented in the previous office action again apply.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3654

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
